Australia's North West Expo Inc is a not-for-profit organisation. ABN: 68 213 060 462
Broome Recreation and Aquatic Centre – 1 & 2 May 2010

Testimonials

"I believe that the annual North West Expo ... is a wonderful event that showcases businesses and industries in the Kimberley and provides an opportunity for small business operators to promote their products and services and network with other regional partners.

As the Western Australia Government lead agency that supports and promotes the development of the small business sector throughout the State, the SBDC feels the North West Expo provides enormous benefit to individual businesses and the region as a whole" –

Patria Jafferries, Chairman, Small Business Development Corporation

"2010 will be the second year the Shire of Derby/West Kimberley has been an exhibitor and the added interest in our towns, businesses, and tourist attractions was evident from our first involvement. For this reason, we mean to continue participating indefinitely. We do not, as a rule, attract the same amount of interest as more prominent centres in the north and this is an excellent way to promote ourselves at an event which has built a reputation as the largest annual showcase in the region.

In our view, there is no other single entity in the north of our state which can compare with NW Expo and the outstanding service it provides and we hope to be taking advantage of that service for many years to come" –

Elsia Archer, President, Shire of Derby/West Kimberley

"The Broome Chamber of Commerce was one of the initiating partners of the original annual Expo about 20 years ago...[North West Expo] is unique in that it offers the only annual business showcase and networking opportunity of its type in the region. It nurtures new and emerging small businesses, along with delivering opportunities for grass roots community contact and education to larger businesses, industry bodies, government entities and service organisations.

As the region struggles to find balance amongst a range of often competing industry agendas, the Expo stands out as an event which brings many of these industries together, for discourse, for information sharing, for networking and for showcasing what is being achieved in a positive light" –

Anthony E Proctor, President, Broome Chamber of Commerce

"The Expo seems to be getting better each year. We have been exhibiting since 2002 and it is great to see it growing each year with new exhibitors and good visitor numbers. NW Expo provides an ideal venue for our company to network with past clients and meet new potential clients in a friendly open forum" -

Sue Pascoe, LJ Hooker, Broome

Broome Recreation and Aquatic Centre – 1 & 2 May 2010

"Over eight years [North West Expo] has created a professional, apolitical platform with a vision linked to the strategic outcomes of many regional organisations including the Shire's objective for Broome's diverse and growing economy to provide long term employment and economic benefit for current and future generations.

The North West Expo successfully provides the opportunity for business, industry and government to actively engage with the community, customers and stakeholders" –
Kenn Donohoe, Chief Executive Officer, Shire of Broome

"The NW Expo was well organised, well run and proactively communicated. [The coordinators were] extremely helpful and accommodating to our/my various requests. The NNTT was made to feel welcome and the various ancillary events created many networking opportunities which are already yielding positive outcomes. Thank you and congratulations to you and your professional team" -
Tom Weaver, Regional Manager, WA, National Native Title Tribunal

"Great Expo. Great opportunity for us for the West Kimberley. Very professional Expo event. Cheers, well done!" -
James Hanna, Batchelor Institute, Northern Territory

"We value the opportunity that Expo presents us with each year. It allows us to get grassroots feedback on our activities, as well as building membership and attendance for our programs.

As an organisation, Expo provides us with unique opportunities...We fully support Expo's growth and the addition of more facets to the event which will help to bring more activities and more people to gain information and benefit to more community groups like ourselves" –

Leesa-Rae Harrison, Manager, Broome Circle
